

When Her Back Aches

A Woman Finds All Her Energy and Ambition Slipping Away.

Barre women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Barre woman's words:

Mrs. Frank Jones, 106 South Main street, Barre, Vt., says: "About five years ago, when living in Worcester, I began to suffer from kidney trouble and had such terrible pains in my back at times that I could hardly get about. If I arose too quickly after sleeping, sharp twinges darted through my hips and I often had severe attacks of dizziness. At night, it was impossible for me to sleep well, and during the day I was tired and worn out. Being advised to try Doan's Kidney Pills, I did so, although I had not much faith in their merit. After using them a few days, I found that they were helping me, and I continued taking them until the pains in my back had entirely disappeared. The other symptoms of my trouble were also greatly relieved and I felt better in every way."

For sale by all druggists. Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

TRAVELERS' RAILWAY GUIDE.

Central Vermont Railway.
Trains leave Barre for White River Junction and Boston, and way stations, also Windsor and Bellows Falls and New York at 8:30 and 11:30 a. m. Also leave Barre for White River Junction, Bellows Falls, Springfield and New York at 5:40 p. m.
Trains leave Barre for Burlington, St. Albans, Montreal and way stations at 8:30 a. m., 1:45, 5:40 p. m. and 11:30 p. m.

Montpelier & Wells River Railroad.
Trains leave Barre for Wells River, connecting at that point with trains going both north and south, at 7:30 a. m., 12:30 and 1:30 p. m. The 7:30 train connects with train for Boston, and north for Lisbon, Littleton, Fayston and Lancaster, also with Montreal express, and the 12:30 and 1:30 trains with St. Johnsbury and Greenfield.
Trains leave Barre for Montpelier at 7:30 a. m., 12:30, 2:30, 4:30 and 8:30 p. m.

Electric Street Railway.
Cars leave Barre for Montpelier at 7:30 a. m. and 11:30 p. m. and leave Montpelier for Barre on the hour and half hour until 10 p. m.

This is the season for incipient colds and persistent coughs, which, if not attended to, will lead to things more serious.

We have Cold Cures and Cough Remedies for each and every case.

FOR BABIES—"Honey B Anise" 25c

Contains no opiate or alcohol and cures the cough.

FOR CHILDREN—"White Pine, Eucalyptus, and Honey", 25c

Pleasant to take and very effective.

FOR ADULTS—"White Pine and Red Spruce Gum", 25c

Nothing better made for a cough remedy.

We have all the well-known Cough and Cold Remedies. Call, and talk it over with us.

GRANITEVILLE.

Charles Carr Died Yesterday of Locomotor Ataxia—Funeral To-morrow.

Charles Carr died at 7 o'clock yesterday morning at the home of his daughter, Mrs. Clark, in Graniteville, after a lingering illness of locomotor ataxia. The funeral will be held tomorrow afternoon at 2 o'clock from the Presbyterian church here, with interment at Orange Center.

Malcolm McLean has rented his farm for a period of two years, during which time he will take up his residence in Graniteville.

Murdoch McFar, sr., has been away on a visit to several places in Massachusetts. His many friends are pleased to see him at home again.

Services at First Presbyterian church, Graniteville, Sunday, March 13: Gaelic service, 10:30 a. m.; subject, "Gileasann"; noon, Sunday school and pastor's Bible class; funeral service, 2 p. m.; evening service, 7 o'clock; subject, "How one star differs from another star."

Foremen report progress on the quarries, and orders are coming in thick and fast. Men who left during the Barre lockout are fairly reappearing.

One man arrived lately from Cobalt in Ontario, Canada, where, he says, there is plenty of work and good wages, but the unsanitary conditions are such as to drive people away.

The ladies' aid met Wednesday at the hospitable home of Mrs. Malcolm MacLean, where sewing, feasting, singing and a general good time was enjoyed. The ladies agreed to contribute \$150 toward making a payment on the mass debt. The managers will supplement the amount to the extent of \$122, making in all \$272. The ladies aid has also decided to hold an old folks' concert in the near future. They will meet at the church Monday evening when initial steps will be taken to form a program.

The Woman's missionary society met at the manse Tuesday night. A large number were present. It was agreed, among other things, to hold the annual thanksgiving meeting Sunday afternoon, March 20, at 2 o'clock; in the auditorium of the church, when an interesting program, consisting of sacred songs, a missionary address and readings by members of the society will be given. It is hoped there will be a large number present, as this meeting is the first of its kind ever held at Graniteville.

Last Sunday evening there was an exchange of pulpits between Mr. MacArthur and Mr. Barrell of Websterville. The people were greatly pleased with such an evident token of friendship between the two congregations, and we think this is as it should be. Mr. MacArthur is evidently a champion of law and order. In his sermon Sunday morning on "things that are shaken and things that must remain," he roundly scored all who appealed to the arbitrament of stones and bullets instead of to sanctified common sense.

The managers of the Presbyterian church met in the manse Monday evening. All were present but one, and Mr. Mitchell, chairman, took charge of the meeting. Among other things, it was agreed to have Mr. MacCallum of Manchester, N. H., lecture in the auditorium of the church the evening of March 16. We understand that Mr. MacCallum, who traveled in Italy shortly after the earthquake at Messina, will show over 100 magnificent time light views. Three hundred tickets have been ordered and it is expected that all will be sold.

ROCHESTER.

Mr. Darragh has been confined to the house nearly all winter and is only able to sit up for an hour or so each day.

Miss Roxanna Marsh has gone to Spencer, Mass., where she has a position doing office work and Miss Mattie Parmelee has taken her place in the post office at Rochester.

It was voted at town meeting to accept the offer of Mrs. C. W. Emerson, and a fountain and public watering-trough will be erected in memory of her late husband, Dr. C. W. Emerson.

On Friday, March 4, the basketball team met its first defeat, when it lost to Rutland high school. During the first half the local team played with a snap and vigor that astonished the crowd of spectators. Rochester was the first to score, and the half ended with the score 15 in favor of Rutland. When the second half opened, our boys seemed so strongly impressed by their opponents' superior weight and tactics that they failed to come up to their former standard, and the game closed with a score of 51 to 23 in favor of Rutland. Fay Martin's ability to shoot baskets from the floor was a feature of the game. It may be well to say that the Rutland team, which was much heavier than the Rochester team, has only lost one game this season, and was to play the following night for the championship of southern Vermont.

Saved a Soldier's Life.

Facing death from shot and shell in the Civil war was more agreeable to J. A. Stone of Keap, Tex., than facing it from those doctors said was consumption. "I contracted a stubborn cold," he writes, "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 175 pounds. For coughs, colds, influenza, croup, whooping cough and lung trouble, it's supreme. 50c, \$1.00. Trial bottle free. Guaranteed by the Red Cross Pharmacy."

EAST BARRE.

The Dramatic club of the Williams-town grange will present "Neighbor Jackwood" at East Barre, Tuesday evening, March 15. Music by orchestra.

Coughs and Colds.—At this season when coughs are so prevalent, an effective remedy, and one easily obtained, is Perry Davis' Painkiller. It is no new nostrum, vended by unknown agents, but has stood the test of over seventy years; and those who use the article, internally or externally, will confess with grateful recollections of its worthy inventor.

RANDOLPH.

Miss Anna Eastman returned from Pittsfield Friday.

Mrs. D. D. Howe visited friends in Montpelier recently.

A daughter was born to Mr. and Mrs. Roy Thayer Friday, March 11.

Mrs. O. R. Copeland is somewhat improved from her late illness.

Mrs. Kidder, living on South Pleasant street, is very ill with the measles.

Clarence Frost is the new apprentice to the printers' trade at The Herald office.

Mrs. John Mead and children have returned from Brooklyn, where she has been the guest of Mrs. R. J. Kimball.

Miss Elizabeth Evans has been a guest of Mrs. L. D. Williams for several days and returned to Woodstock Wednesday.

James Freebourn, the welder, returned to Randolph on Tuesday, after a long absence, and is to wrestle here next week.

Mrs. N. C. Greene has secured the assistance of a competent woman and has again opened her boarding-house on Summer street.

Mr. and Mrs. Ned Buck left here Friday for an over Sunday visit in Lebanon, upon the mother of Mr. Buck, Mrs. Estella Buck of that place.

The remains of Newton Flint were brought here from Worcester Thursday and taken to Brainerd. The funeral was held Friday and interment was in Brainerd.

Mrs. E. R. Draper and her daughter, Miss Ruth Draper, returned from Boston Thursday evening, having been in that city since Sunday, buying military goods for the spring trade.

Miss Hannah Hanson has been the guest of Miss Laura Montgomery for a few days and on Wednesday evening accompanied Miss Mabel Dyke to her home in Bethel for a few days' visit.

The members and friends of the Brainerd club met in the parish house Thursday to the number of 80, it being the annual meeting. The following officers were elected: President, Norman Nichols; secretary, Miss Minnie Carpenter; treasurer, V. I. Spear. Following the business, refreshments of maple sugar and doughnuts were served, and a general good time was had, which made the evening one of great enjoyment.

The ladies of the Federated church passed a delightful afternoon Thursday at the home of Mr. and Mrs. W. H. Gladding, Prospect avenue, with Mrs. Minnie Miller as hostess. The company was entertained with a solo by Miss Lettie Bailey and also one by Mrs. J. B. Adams. Delicious ice cream and cake were served. A vote of thanks was given Mr. and Mrs. Gladding for their hospitality to the ladies, to which Mr. Gladding responded. A vote of thanks was also given the soloists for the selections given. It was voted at this time to establish a "sunshine fund," for the purchase of flowers for the sick.

GROTON.

Alex. Hall Somewhat Bruised in Runaway.

The delivery team of B. S. Eastman figured in a lively runaway Tuesday afternoon. The team was driven by Alex. Hall, and when near the grist-mill the sled collided with the grain team of Clark & Davidson, throwing Mr. Hall out and severely bruising him. The horse cleared himself from the sled but did no other damage. Cyrus, the little son of Mr. Eastman, was in the team but remained in the sleigh and was uninjured. Mr. Hall resumed his duties as clerk Thursday, although somewhat lame.

Misses Nova and Virginia Bicker were visitors at Woodville, N. H., recently.

Mr. and Mrs. William Smith of Passumpsic visited his brother, James Smith, the first of the week.

Mr. and Mrs. William Stevens of Morrisville are visiting Mrs. Stevens' parents, Mr. and Mrs. Moses Page.

Mrs. B. L. Tillison left Wednesday for Malden, Mass., for a week's visit with her sister, Mrs. Alexander Ross.

S. P. Welch served an oyster supper at the church vestry last evening to members of the Baptist Sunday school.

Mrs. A. L. Daley of North Tisbury, at the home of her father, Simon Field, who is very ill and not expected to recover.

Mr. and Mrs. Fred Parker went to West Barre Wednesday to attend the funeral of Mr. Parker's stepfather, William Stuart.

Herbert Darling, who has been here since last week to visit his parents, Mr. and Mrs. D. B. Darling, returned to his home at Fiddlerford, Me., Thursday.

A party consisting of Mr. and Mrs. B. S. Eastman, Dr. and Mrs. G. C. Cowan, Mr. and Mrs. C. J. Bailey and Mr. and Mrs. A. A. Webber attended a social dance at South Ryegate Thursday night.

WASHINGTON.

The I. O. O. F. attended church services at the Baptist church Thursday.

Bessie McDonald is said to be more comfortable and is considered to be slightly better.

It is reported that Alex. Scott has sold his farm, known as the Patterson place, to Mr. Bradbury of Barre.

Those who have been ill and said to be gaining, include, J. L. Eastman, Arthur Dennison, Captain and Mrs. B. H. Paine and M. R. Bohannon.

The Washington Dramatic Co. presented their new play entitled, "The Little Savage," to good houses Friday and Saturday evenings, the proceeds, which were large, are to be used to procure new scenery for the stage.

L. W. Seaver, who has managed the creamery for the past two years, has given up his work and last week moved back to his father's farm. Mr. Powell has been engaged to run the creamery and began his duties Wednesday, last.

Worms

Roundworms and other parasites have been found in the intestines of many of our children. They are the cause of many of the troubles which afflict them, such as indigestion, loss of appetite, nervousness, headache, dizziness, and general weakness. They are also the cause of many of the troubles which afflict the adult, such as indigestion, loss of appetite, nervousness, headache, dizziness, and general weakness.

TRUE'S ELIXIR

is the best worm remedy made. It has been used for over 100 years and is perfectly safe, harmless and effective. Worms are present in all cases of indigestion, loss of appetite, nervousness, headache, dizziness, and general weakness. A positive cure for Constipation and Biliousness, and a valuable remedy in all the common complaints of children. Price 25c. Ask your druggist for it.

J. P. F. Fisk & Co., Auburn, Me.

MONTPELIER.

Mahlon Taplin Died Yesterday of Abscess in Stomach.

Mahlon Taplin, a native of Montpelier and a resident of this city until 1871, died yesterday in Boston, as the result of an abscess in the stomach. He was born here 66 years ago, was educated in the public schools and then entered the old Montpelier National bank as a clerk, later working in the plants of the Lane Manufacturing company. Mr. Taplin married, in 1870, Miss Josephine Hart, and the next year they moved to Boston, where he was interested in the firm of Lamson & company, continuing in the business until two years ago, when he retired. He is survived by his widow and three children, a sister and a brother. The body will be brought to Montpelier Monday, with interment in Green Mount cemetery, the burial service being read by Rev. J. Edward Wright. The bearers will be A. D. Farwell, A. J. Shibley, Charles H. Weston, W. A. Long and E. H. Devault.

W. L. Shields of Indianapolis addressed the painters' union last night on the principles of unionism.

Robert Hastings, well known in this city and Barre, having been employed in the latter place, is reported seriously ill with pneumonia in Chicago.

Montpelier high school defeated Rochester high last night, by a score of 32 to 12, in an uninteresting game of basketball. Cullen played a star game for Montpelier.

One hundred clerks at the office of the National Life Insurance company are attending a sugar meeting today at the home of Henry Clark, the agent of the company in Plainfield.

Miss Hilda Sheridan celebrated her 20th birthday anniversary Thursday evening at the home of Mr. and Mrs. M. P. Johnson. Miss Sheridan received many gifts and a most enjoyable evening was spent.

Frank Hall, driver of the Worcester stage, lost his horse yesterday on his way to Montpelier with the mail. The shafts pulled off the sleigh and the horse ran. Mr. Hall got another team and tried to find his own, but at last reports had been unsuccessful.

Hiram M. Pierce has been elected a delegate from Bethany church to attend the council of dismission to meet in Berlin March 18, to act on the resignation of Rev. Donald Fraser of that place, who has accepted a call to the church at Wells River.

E. E. Buck has been in a serious condition for several days as the result of using amies on one heel. This caused a blister and he came near having his foot poisoned. His condition was such that for a while it was feared amputation would be necessary.

Charles Moore, a former resident of this city, died Thursday at his home at Winter Hill, Somerville, where for twenty years he had been employed as a printer for the postoffice department. For several years he worked in the Argus office here, going from that position to the one in Somerville. His wife was Miss Carrie Atkins of Middlesex.

Rev. W. T. Sparhawk of Cabot gave an address last evening at a meeting of the Tropic club on Wanauna, Wyoming, illustrated with stereoscopic views, taken by himself while on a trip through the West. Mr. Sparhawk's sister, Miss M. D. Sparhawk of Randolph, added to the pleasure of the evening by vocal selections, both in solos and in a duet with Miss Minnie Barbour.

Mr. and Mrs. E. E. Joslyn were surprised at their home Wednesday evening when fifty of their friends gathered to help them celebrate the 35th anniversary of their marriage. This anniversary occurred January 26, but at that time it was impossible to carry out the affair as a surprise, so the participants waited until an opportune time arrived. Refreshments were served and an enjoyable evening was spent.

The missionary society of the People's Evangelical church elected the following officers Wednesday at a meeting held at the home of Mrs. Rufus Wiggins: President, Mrs. Ned Carr; vice-president, Mrs. George Maker of Barre; treasurer, Mrs. William Cahine; secretary, Mrs. George Maker; president of the mission band, John Leach. Mrs. Maker was elected delegate to the Stomach, Mass., conference to be held March 24, with Mrs. Carr alternate.

CURIOUS FARM FACTS.

Tulips will bloom better in the house if they are left until after New Year's to make roots.

A sensation in potato growing has been created in the neighborhood of Ridgeley, Md., or at Richardson, a suburb, by the discovery that potatoes grown in a barrel yield enormously.

A white duck owned by C. W. Winter of Bridgeport, Conn., is normal in all respects save that it has no breast bone and over its breast feathers have never grown. The skin at this point is thin and almost transparent, and underneath this shallow protection one can see plainly the fowl's heart action.

Making bulbs blossom in the house in winter is one of the easiest processes in the world and adaptable even to city apartments, which is saying the least about house plants. Hyacinths will bloom within a month in a Tye glass or a bowl of pebbles. You can buy the whole thing ready to fill with water and set on your mantelpiece for 30 cents.

On account of the starch they contain potatoes are valuable as food. The potato tuber consists mainly of a mass of cells filled with starch and encircled by a thin, corky rind. The chief value of the potato as an article of diet consists in the starch it contains and to a less extent in the potash and other salts. The quantity of nitrogen in its composition is small.

There was never a farm touched by an interurban trolley line but that its value was greatly increased. Farm lands on interurban lines have advanced to as high as \$300 per acre. The trolley converts a country home into a suburban home. Thousands of people move into the country with their families, where they live the year round, while their work is in the city.

If the young men who are brought up on the farms do not want to stay there it is up to them, but there are

EXPERT POTATO CULTURE.

Specialist Gives Hints For Growing Tubers on Irrigated Land.

One of the recent farmers' bulletins issued by the department of agriculture is written by E. H. Grubb of Carbonade, Colo., an expert grower, who says:

The improved planters of today open the furrow, drop the seed, cover it, firm the dirt over the seed and mark the next furrow. Such a planter is drawn by two horses. The writer plants the potatoes about two or two and one-half inches below the surface of the soil. Experiments with potatoes planted in rows all the way from thirty-six to forty-two inches apart indicate that the best distance depends upon the seasonal conditions and type of soil. It is a problem for each grower to solve for himself. The distance apart the potatoes should be planted in the row also depends so much upon the variety, the fertility of the soil, the availability of water, etc., that each farmer must determine this from his own experience. I plant them eight inches apart in rows thirty-six inches apart. This gives the largest tonnage of potatoes of desirable size.

The writer's experience has been that seed of large size (two to six ounces) produce strong, vigorous shoots, as they furnish an ample supply of plant food to sustain a strong and vigorous growth until the feeder roots can take up the food from the soil.

During the last two years the best results were obtained from planting medium sized whole seed. While the cost of the seed has been considerably greater, the stand has been approximately perfect. Experience has proved that from one or two eyes only are sprouts developed in uncult seed. The seed and furnishes a strong vine. The other eyes usually remain dormant.

One of the greatest advantages of using whole seed is the protection from disease which may be present in the soil and which may attack the more tender exposed parts of the cut seed.

As soon as possible after the potatoes are planted the cultivator should be started. This implement has four shovels, each four or five inches wide and about fifteen inches long, two on each side of the row, and is drawn by

two heavy horses. These shovels should run as close as possible to the planted tubers without disturbing them. The first cultivation adds to the depth of the dirt over the seed and permits the use of a light smoothing harrow without disturbing the tubers. The cultivator also loosens the soil on each side of the row and better fits it for the potato roots which will soon invade it.

After this the potatoes should be harrowed once a week, if possible, first lengthwise of the rows and then across, until the vines are five to six inches high.

After this the cultivator is used, but is not run so deep as at the first cultivation. Frequent shallow cultivation keeps the surface of the soil loose, conserves the moisture and gives a chance for the root system to spread.

It is not run so deep as at the first cultivation. Frequent shallow cultivation keeps the surface of the soil loose, conserves the moisture and gives a chance for the root system to spread.

Fike's Toothache Drops cure in one minute

200,000 more farms in the country now than there were ten years ago, and there are 6,000,000 of them now, with 30,000,000 people making a fine livelihood thereby. We cannot find it in our hearts to pity the "poor farmer." He is getting along all right, and if his son is wise he will stay by him.

The Baldwin apple first grew as a chance seedling on the farm of a John Ball in eastern Massachusetts and was later brought into prominence by a Colonel Baldwin. These facts are stated on a handsome monument which was a few years ago erected on the spot where this first seedling tree grew, and the millions of Baldwin apples which have been grown since the birth of this first tree in about 1740 are direct descendants of it.

All Around the Farm. It is claimed by those who have trained many horses that taking the colt when training first begins, they can be trained to walk over four miles an hour. The walking gait is the most important one to the farm and road horse. The mistake with many in training young horses is that they are too soon put to trotting, which is a gait they more readily learn than fast walking.

If the land is to be plowed twice before planting in order to make it thoroughly fine, it will be well to roll it before the second plowing in order to pack the surface somewhat and make the earth turn better without clogging the moldboard. The roller is also useful in breaking clods and in packing the surface to prevent excessive evaporation in dry weather.

In order to get hens in prime condition to produce fertile eggs you are required to follow as closely after nature's plan as possible. Provide them with a liberal amount of green food, together with animal food at least twice each week. If you cannot give

them a large, roomy yard, release them from confinement at least an hour each day.

The day of the hog which is half solid fat is limited. Consul Webster of Niagara Falls states that the Canadian hog raisers and packers have been forced, through lack of demand for fat hogs, to produce the leaner bacon type which can be sold to advantage for the export trade.

A better should be milked as long as possible during her first period of lactation even if she does not give much milk. When allowed to dry up at six months she will go dry every time at the same period when a cow. Heifers are very susceptible to education in this respect.

Provided the hen is cooped or tethered, young chickens may be allowed to run in the onion and asparagus beds.

Little Facts For Farmers.

A government report says that in the United States 2,000,000 cattle die annually from disease, exposure and neglect. This country always feels uncomfortable when statistics of waste are brought up.

After timbers have been cut from the log they should be dried as rapidly and evenly as possible so as to remove the moisture and prevent checks. Wood should not be placed in contact with the ground until it has been thoroughly dried; otherwise some fungus will enter and cause rapid decay.

Here are some facts worth remembering: Fifty pounds of butter make
